

The bugle of an elk is like the scream of an engine.
It makes the hair on your neck stand up.

As an avid hunter-conservationist, my passion for the great outdoors is rivaled only by my love of racing. That's why I'm a life member of the Rocky Mountain Elk Foundation. We've protected and enhanced five million acres of wildlife habitat across North America. Ensure the future of elk country. Join me at elkfoundation.org or 800-CALL ELK.
